

Opening Ceremony of the Historical Site Adlerwerke

25 March 2022

Greeting by Agnieszka Kudelka

KARTA

My name is Agnieszka Kudelka and I represent the Polish NGO named KARTA from Warsaw. We have undertaken in 2016 a project about the KZ Katzbach, consisting of two publications, one in Polish, one in German, about the remembrance for the KZ Katzbach, and then two panel discussions, one in Warsaw and one in Frankfurt. We took special note, because the majority of the victims of the camp were from the Warsaw insurrection. We therefore are very pleased, that the civil engagement for a memorial and educational site, that long had resembled a „tilting of wind mills“ , has been successful.

We congratulate the City of Frankfurt for this important step. We conceive it not as an increase for the local memorial and educational landscape, but especially that this site will have a particular place in the city. We wish for the „Geschichtsort Adlerwerke“, that its participative political education strengthens the fundamental values and convictions of a democratic society strongly and for a long time.
