

Opening Ceremony of the Historical Site Adlerwerke

25 March 2022

Greeting note by Lothar Reiningger

LAGG e.V.

Hallo, my name is Lothar Reiningger and in the name of the Verein Living and Working in Gallus and Griesheim I am greeting all those present and express my big delight that now - 77 years after the end of the war and after over 30 years after the beginning of working for the historical and memorial site - it is now at this stage.

I am delighted, that with Thomas Altmeyer a very intelligent and experienced man will oversee this educational site, and I have the feeling, that the concept, which has been chosen, will be specially target young people. And we find that very good and important, because we notice, when young people engage with the subject of KZ Katzbach, and work with it, then they get involved.

And that is, how it can work without contemporary witnesses, and that is, what we have adapt to, because the next, last witnesses will soon not be there any more. That is the mold, how we can continue to account for the past.

Many thanks for everybody.

It took a long time, but ,thank God, now we have it!
